

GMU Wireless Access

- **For Macs**

- Bring up Safari browser

- Click on a bookmarked link

- Click on Guest Access and enter:

- username: **applepi**

- password: **George2010**

- Wait for Applet and click OK, then minimize the window

- Remember to keep that page open or you will lose the connection.

- **For iPhones, iPads and iPod Touches**

- Open Safari, and a login screen will appear.

- Click on Guest Access and enter:

- username: **applepi**

- password: **George2010**

- Screen will disappear and you should have 4 hours of Internet Access
