Kenneth Goldman
President, Washington Apple Pi
9437 Lost Trail Way
Potomac, Maryland 20854

Dear Mr. Goldman,

On behalf of the Volgenau School of Engineering, I would like to thank you for Washington Apple Pi's donation to endow a scholarship. Over the years, this generous legacy will benefit countless students.

We look forward to awarding the first recipient of your scholarship this fall, and making a public announcement about the gift later this month. It is great that your donation will make this immediate and significant impact for a student.

Thank you very much for your role in creating this new partnership between the Volgenau School and your community of Apple and Mac users. We are truly grateful to you and your fellow board members for seeing the value in creating this thoughtful and generous gift.

Sincerely,

Kenneth S. Ball, Ph.D., P.E.
Dean

Washington Apple Pi Endows Scholarship at GMU

Bethesda, MD, September 24, 2016 – Washington Apple Pi (the "Pi") has created an endowed fund at the Volgenau School of Engineering at George Mason University (GMU) in Fairfax, VA. The Washington Apple Pi Endowed Scholarship provides scholarship support for undergraduate and graduate students studying computer science.

The Pi is a community of Apple device users. One of the oldest Mac User Groups (MUGS), dating from the earliest days of Apple Inc., it conducts several member meetings each month around the DC Metro area, publishes podcasts of its speaker oriented "general meetings", and provides members with email services and a tech forum.

The Pi is live on Facebook and Twitter, uses Meetup to advertise its meetings, and streams meetings on Ustream and Periscope. The Pi also promotes the reclamation activities of the MacRecycle Clinic, which provides refurbished Macs to a range of needy programs and schools.

Pi President Ken Goldman noted, "The Pi philosophy has always been one of 'users helping users.' We are delighted to extend this philosophy forward for years to come by devoting some of our financial resources to help students of George Mason University."

"We really appreciate Washington Apple Pi for making the connection between the education of Computer Science students and the success of companies like Apple in developing world-changing devices," said Sanjeev Setia, the GMU Computer Science Department's chair.

The first student will receive an award in fall 2016.

How to Donate

- There are two ways:

  - Online: <u>give.gmu.edu</u>

    - And write in the "other" section: Washington Apple Pi Scholarship Fund and then fill out the form and pay by credit card.

  - Mail a check: GMU Foundation, 4400 University Drive, MS 1A3 Fairfax, Virginia 22030

    - Checks should be made out to: GMU Foundation and the designation written in the memo.

Clubhouse Saturday Clinics

Washington Apple Pi Flyers

Clubhouse Saturdays

Unstructured meetings where "users help users".

Enjoy coffee and goodies and find personalized solutions for hardware, software, networking—whatever. 10:00-2:00 at Cedar Lane Unitarian Universalist Church in Bethesda on most 1st, 2nd, and 3rd Saturdays. Newcomers always welcome!

Monthly General Meetings (live streamed)

Q&A, Main Speaker/Topic, and Coffee Meet and Greet - 4th Saturday, usually at George Mason University in Fairfax, VA @ 9:30 to 12:00.

www.wap.org

office@wap.org

Tel: 301-984-0300

(only messaging)

Washington Apple Pi

A Community of Apple iPad, iPhone and Mac Users wap.org
office@wap.org @pi_org

Through social activities, sharing, fun, mentoring, and education, the Pi's aim is to improve our knowledge and enjoyment of Apple mobile devices and computers.

Afternoon Learners SIG
(Special Interest Group)

Informal weekday meetings with a theme, a presentation or two, and usually with a bit of time for "users helping users." 2nd Thursdays at 1:00-2:30 at the Cedar Lane location. Newcomers

Membership Benefits also include...

- TCS Discussion Forums - A round-the-clock online get-together where the Pi's experts hang out, educate, entertain and inspire each other between meetings.

- Bring your questions, answers, discoveries and stories. Email - membership includes a wap.org email account Journals - Every Journal is packed with tips, tricks, reviews and opinions.

- Members can download full-color PDFs of all back issues since 2009.

High-resolution scans of earlier paper issues are now also online.

Free sample journal: http://wap.org/journal/showcase/washingtonapplepijournal2009v31n02.pdf

- Podcasts of General Meeting presentations and Q&A's.

All this and more for about the cost of one cup of coffee per month!

2016 Washington Apple Pi
Photo Contest

The primary purpose of this year's photo contest is for you to try and learn new photo techniques using those provided for free from Apple.

Novice and Advanced Level photographers should use the many options that come with the iPhone and iPad or in Photos (or iPhoto if you have not upgraded) to "edit" and modify the photos you submit.

Advanced Level photographers may also use options from other third party companies. Those products should be listed when the photo is submitted.

Images must be take with an iPhone or iPad.

Photos must be taken between July 1st and September 30th, 2016.

You must decide your level of photo experience (Novice and Advanced).

You may submit a total of two photos for each category in your level of experience.

Photos must be uploaded to the Apple Pi user site **No Later Than October 10th**.

Judging will be done after October 10th.
